GETS RICHER AS IT ATTAINS DEPTH

The more work the better the showing is the axiom of Hornsilver. This is demonstrated everywhere in the district, and in no property to a greater degree than in the lower workings of the Great Western. The work of the last week has not only proved the continuity and strength of the ore bodies, but has yielded values of high grade ore that are somewhat exciting.

The winze reaching from the 100 level to connect with the 200 is now down about 90 feet. It has been continuously in ore, which has increased steadily in value. At 80 feet deep four feet of ore yielded a sample returning \$812 to the ton, of which \$125 was gold. A few feet farther down richer ore was encountered, an assay of which demonstrated its value to be \$2,070 to the ton, more than \$100 of it being solid gold. This is a grand showing—not only for the Great Western, but for all the other mines and all the leasers—proving that with depth the ore of the district does not deteriorate, but increases in value. The winze is being pushed down and this very development work enforces the extraction of much rich ore, which is being sold and shipped. The connection will be made in the east drift from the 70-foot crosscut.

Both the east and west drifts are being continued in solid ore shoots. The length of ore faces being uncovered will soon put the Great Western into condition to ship a carload of high grade daily, besides piling up thousands of tons of good grade milling ore.

Everywhere—in the deepest workings, in every surface trench, in every shaft—the Great Western presents a grander array of ore bodies and values than ever before. It is work, good work, intelligently directed, that is making this a great mine.

Ore shipments continue steadily.—Hornsilver Herald.

APPEARED A WINNER.

"I hear Lem Boggs Sundayed with ye, deacon?"

"Yaas."

"Gola to lose yer darter, hey?"

"I reckon, but not to Lem. Zeb Higgs Mondayed, Tuesdayed, Wednesdayed an' Thursdayed with us. I judge Zeb is the lucky man."—Louisville Courier-Journal.

A FRIEND IN NEED.

"Loan me a dollar, old man," said the actor; "I'm hungry."

"I'm broke myself," responded the stage manager, "but I'll put you on in the bill tonight. We have an eating scene."

"Man, I'll starve before night."

"In that case I'll call a rehearsal."—Kansas City Journal.

FIGURING IT OUT.

"But remember, my dear, that you are one."

She looked at him scornfully.

"One!" she echoed. "Nonsense."

"We are 10. I'm the one and you are the elpher."—Exchange.

GROVER CLEVELAND HAS PASSED AWAY

(Continued from Page 1.)

tional Convention, in July, 1884, he was selected as the standard bearer of the Democratic party. James G. Blaine was his opponent. In one of the bitterest Presidential campaigns ever conducted, in which disgraceful attacks were made upon the candidates, Cleveland received 219 electoral votes to 182 cast for his Republican opponent. He was inaugurated President in March 5, 1885, having resigned his Governorship on January 6, 1884. He was a candidate for re-election in 1888 and was defeated, when he retired to the practice of law until 1893. He was re-elected in 1892 and took the oath of office in 1893. In 1904 he was much talked of as a candidate for a third term, but emphatically declined to be so considered.

ARREST COSTS MAN HIS BRIDE

(By Associated Press.)

PORTLAND, Ore., June 24.—Arrested the day before his wedding day for passing fictitious checks, Edgar Storey, confined to the city jail, today received by messenger several dainty packages, tied with ribbons. The packages were from his fiancée and contained a ring, locket and chain and several other expensive pieces of jewelry. With the package came a warning that if he should dare to appear at the young woman's home again he would be dealt with harshly by her older brothers.

Storey was to have been married Friday by Dr. J. Whitcomb Broagher, pastor of Portland's leading Baptist church. On Thursday he was arrested for forgery and has already pleaded guilty to one charge. Others will be filed against him.

IS PROMOTED.

J. R. Johnson, chief clerk under W. V. Keith, of the Tonopah & Goldfield Railroad, has been appointed to the position made vacant by the resignation of the latter, and will assume charge of the office on July 1. Mr. Johnson is a very capable and efficient young man, and no doubt will fill the office acceptably to the management.

PREPARING TO MAKE SHIPMENTS

O. P. Welch, one of the best-known

and most energetic rustlers in the Lida district, came up from camp Sunday to arrange for the shipment of seventy tons of ore from a lease on the Esmeralda claim, which he and his partner have extracted in the course of development work. They have considerably more good ore blocked out, and will be able to make several shipments during the summer months.

The ore now on the dump, which has been bought by the Western Ore Purchasing Company, is of two distinct classes. The first rock extracted from the vein was a white quartz, heavily impregnated with galena and carrying a high percentage in gold. With depth the lead contents disappeared entirely and the pay streak was composed of iron hematite carrying both gold and silver. The seventy tons on the dump, which will be hauled to Cuprite, runs from \$50 to \$250 a ton, and is expected to average well above \$100.

The Esmeralda claims are owned by Tom Jones, postmaster at Lida, who has done his share in the endeavor to develop that rich mineral section of the State. They are located about five miles northwest of the town, near the Silver Peak road. There are a number of good properties on the same big ore channel, the Hi For Luck, Golden Chariot, Blue Dick, Centennial and others, which need but intelligent development work to make shipping mines. With the railroad but sixteen miles distant, Lida should come to the front.

The lease on the Esmeralda was taken by Welch, William Alexander and the Burke brothers, and the latter recently sold their interest to Mr. Welch.—Goldfield Review.

THE FARMER'S IDEA.

"I see where a number of city folks have their money tied up in defunct trust companies," remarked the churn peddler. The old farmer laughed.

"Yeas, stranger," he drawled, "thar is only one place I care to have mine tied up in."

"And where is that?"

"Why, in a handkerchief."—Chicago News.
